

RE: NAB's Petition 04-160

Dear FCC,

I am respectfully writing this letter to you today in hopes that you will not allow the NAB to block valuable and necessary local weather and traffic radio information from from my XM radio service.

I rely on these types of services daily, and to limit them in any way, shape or form is in effect censorship. I also feel that to limit these types of broadcasts from my XM radio is dangerous and would potentially put me and other XM listeners in harm's way.

We live in an instant-news society, breaking weather news is just as important to me as I drive down the road listening to XM radio as it is for the person in front of me on the same road listening to AM or FM radio.

No government, local, state or national should tell me or other consumers what type of medium to listen to for this type of news coverage. It is in the best interest of all consumers to have access to this valuable information.

Again, please block the NAB's efforts on this petition and continue to let XM offer breaking local traffic & weather news.

Sincerely,

Andrew D. Moore
Longview, TX
